

TRU GRIT AC – 70 Tar & Bitumen Cleaner

Use

AC-70 has been developed to offer the best active cleaning formula available for bitumen, heavy oils and grease

Product Information

TRU GRIT AC-70 was developed in conjunction with bitumen suppliers and contractors. This is considered the toughest testing ground for grease and tar removal and AC-70 exists solely for that purpose.

The aggressive and highly effective performance of TRU GRIT AC-70 is achieved through the carefully formulated blend of multiple surfactants, solvents, wetters and proprietary ingredients. The building of the product to achieve higher viscosity is designed to ensure the active ingredients remain in contact with the target bitumen, grease and grime on vertical surfaces.

The product can be thinned back down with the use of an appropriate if application is by sprayer. TRU GRIT AC-70 is suitable for use in both hot and cold climates and is not prone to thickening or solidification in very cold climates. TRU GRIT AC-70 emulsifies well and breaks at a high rate. The benefits of TRU GRIT AC-70 has seen its use spread to a broad range of industries including oil and gas, automotive, truck, government and industrial users.

TRU GRIT AC-70 can be detrimental to paint finishes in situations where there is old or damaged paintwork.

Typical Properties

Flammable:	Class 3 Flammable under ADG Code
Appearance:	Moderately viscous green liquid
pH (Undiluted):	Not Applicable
Density:	1.11 - 1.13 kg/L
Solubility:	Emulsifies
Flash point:	67C

Product Codes / Quantities

A/TRU GRIT AC-70/20 20L Metal Can (48 cans per pallet)
A/TRU GRIT AC-70/200 200L Metal Drum (4 drums per pallet)
A/TRU GRIT AC-70/IBC 1,000L Intermediate Bulk Container

AC-70 Bitumen Cleaner is a Dangerous Goods Class 3 Flammable under the ADG Code
